

## HEALTH & SAFETY

### **Prevention**

Never canvass or drive under the influence of alcohol, medication, or drugs. Leave areas that do not appear safe and notify your Field Director.

### **Injuries**

If you receive any type of injury while canvassing, notify your Field Director immediately so you can receive medical assistance.

### **COVID-19 Protocol**

The health and safety of canvassers and voters is our top priority. Here is how we do that:

1. Check your temperature each morning. If your temperature exceeds 99.9 degrees, alert your Field Director and stay home!
2. Wear a face covering while canvassing.
3. Maintain a distance of at least 6 feet from others while canvassing.
4. Carry hand sanitizer or disinfecting wipes while canvassing.
5. Disinfect phone and pens after each voter interaction.
6. Wash hands with soap and water frequently.
